

## SOLDIER BONUS BILL FORMALLY PRESENTED TO SENATE YESTERDAY

**First Attempt to Present Measure Blocked  
By Senator Williams—Underwood Says  
Bill Will Injure American People—Will  
Cost from Four to Five Billion Dollars**

(By The Associated Press)  
WASHINGTON, June 8.—The soldier bonus bill was formally presented tonight to the senate after a first effort by Chairman McCumber of the finance committee to report it at the opening of the session had been blocked by Senator Williams, Democrat.

Senator Williams was absent from the senate when Senator McCumber presented the measure for the second time, but came into the chamber a few minutes later. The presentation followed a quorum call and was without discussion. The bill automatically went to the senate calendar.

In attempting to offer the bill soon after the senate met at 11 A. M. today, Senator McCumber said that "in the very near future I hope to be able to lay aside the tariff bill for a day or so for the purpose of considering and passing, if possible, the compensation bill."

"In the soldiers' compensation bill," he added, "we have nothing but an American bill. I hope we shall be able to dispose of it as an American measure in the same spirit that we voted for appropriations to carry on the war."

Senator Underwood, Democratic leader expressed the hope that when the bill was called up it would be by a vote of the senate and that unanimous consent for its consideration would not be requested. He said if it was proposed to pass the bill at this session it must as well be considered now as in July or August.

"I should be very glad," he added, "if the bill went over until after the elections so that the American people might have an opportunity to voice their sentiments on the subject."

Will Injure People.  
Senator Underwood said he felt that the bonus bill, if passed, "will not only work injury to the American people but will in the end work an injury to the men whom it proposes to help."

He estimated the bill would cost from anywhere from \$4,000,000,000 to \$7,000,000,000 and said it was so drawn that it would have to be paid for in the future and would become a burden upon the former soldiers.

Senator McCumber then sought to send the bill to the senate calendar under a unanimous consent agreement made necessary by the parliamentary procedure but Senator Williams an opponent of the measure objected.

Jumping to his feet, Senator Ashurst, Democrat, urged for McCumber to move to bring the bill before the senate and shouted that the time had come to show "pluck, and grit, courage and sand."

Senator McCumber explained that he was stopped from offering any such motion by the gentlemen's agreement, that no controversial legislation would be called up without advance notice being given to senators.

Informal canvasses of each side have indicated that the bonus legislation has a substantial majority in the senate but a long fight is expected and for that reason some at least of the Republican leaders are opposed to calling it up until after the tariff bill is out of the way.

Before undertaking to present the bill to the senate, Chairman McCumber made public both its text and the accompanying report from the finance committee. The report estimated that the total cost of the legislation would be \$3,845,659,481, spread over a period of 43 years from next January 1, when the legislation would become operative. This total is \$250,000,000 less than the estimate under the house bill.

**BURGLARS AND  
POLICE BATTLE**

PEORIA, Ill., June 8.—After exchanging more than a dozen shots with police at Tremont, Ill., two burglars escaped and one, the alleged leader of the trio was arrested and is held at the Tremont jail on charges of attempted murder and attempted burglary.

When captured the man refused to give his name but from papers found in his possession he proved to be William Kircher of Peoria, police character and father of Arthur Kircher, now serving a sentence of fourteen years in Joliet penitentiary for the murder of Railroad Detective Fred Wells here last December.

Kircher is under \$2,500 bond on an assault charge following his arrest by sheriff's officers May 12, who prevented his escape by firing several shots at him.

**HEAT KILLS MANY

## SEWING MACHINES WILL COST MORE UNDER NEW TARIFF

**Senate Removes Them  
from Free List After  
Fight**

(By The Associated Press)  
WASHINGTON, June 8.—After a two day's fight the senate voted today to remove sewing machines and cash registers from the tariff free list. Committee rates ranging from 25 per cent ad valorem to 40 per cent on these machines and 35 per cent on cash registers were approved. The senate refused to accept the committee rate of 30 per cent ad valorem on printing presses, lawn mowers and machine tools and adopted, 27 to 27, an amendment cutting that rate to 15 per cent.

This was the fourth time the committee had been overturned in the six weeks the tariff bill has been under consideration. Seven Republicans joined with the solid Democratic minority in supporting the Robinson amendment.

They were, Bratton, Kellogg, Ladd, LaFollette, Lenroot, Nelson and Norris.

Senator Lenroot, one of the leaders on the majority side, gave notice to the committee that he would not support it in recommendations to increase existing rates in cases where it was shown, as he said it had been in this instance that imports were negligible and exports large.

Chairman McCumber of the finance committee, argued that the rates proposed were for revenue purposes. Senator Lenroot replied that if imports were small under the present duty of 15 per cent they would be shut off entirely by doubling the rate, with a result that the government would not receive any revenue.

An amendment by Senator Walsh, Democrat, Mass., to restore cash registers to the free list led to a long discussion but it was finally rejected 27 to 32. Re-opening the debate on the cash register amendment, Senator Underwood, Democrat, said the proposition to put a tax on them was for the purpose of raising the prices to American consumers.

**Wants Tax on Linotypes**

Calling attention to the free list provision of the law Linotype machines were named with sewing machines and cash registers, Senator Underwood said he could not understand why the committee left linotype machines on the free list since the amount of labor entering into their construction was much greater than that entering into the making of a cash register.

"I cannot understand why," he continued, "except that possibly the committee believed it had reached one adversary it was afraid of. They were not afraid to put sewing machines which the women use in the homes on the dutiable list, but they did not dare challenge the opposition of the great American press."

Supporting the duty on cash registers, Senator Townsend, Republican, denied this tax would increase prices to American consumers and argued it was necessary to protect independent manufacturers in Saginaw, Michigan, and St. Louis. He said a duty was not requested by "the great trust," the National Cash Register company, as that company for some time had had a "monopoly" and had sought to drive the independents out of business means declared by the courts to be improper.

**KING ALEXANDER  
MARRIED YESTERDAY**

(By The Associated Press)  
BELGRADE, June 8.—King Alexander of Yugoslavia and Princess Marie of Rumania were married today amid pomp and enthusiasm such as Belgrade had not seen since the establishment of the new kingdom every step of the way to and from the cathedral was marked by endless ovations.

Artillery salutes at 10 o'clock announced the ceremony had begun and at its conclusion as the royal party left the cathedral the Queen of Rumania, smiling thru her tears was seen to bend towards her favorite daughter and caress her—a little human touch which caught the imagination and deeply affected the simple people.

Inside the cathedral was a scene of magnificence. Representatives of all the states of Europe attended.

The scenes outside were no less gorgeous and the streets were a fast of color. Three hundred thousand persons from all parts of the kingdom of the Croats, Serbs and Slovenes came to witness the marriage.

**SHOW HOW THEY  
DRIVE IN MONTANA**

Chicago, June 8.—John Bray, rancher of Billings, Mont., was arrested today after a wild chase by motorcycle policemen thru Lincoln Park in which he drove his car off the roads, uphills and in and out amidst the trees.

"I was just trying to show them how we drive out in Billings," he told the police on being locked up.

**SOME CANDIDATES  
HAVE POLICE RECORDS**

CHICAGO, June 8.—Eight of six hundred policemen recently authorized by the city council were found today to have criminal records ranging from receiving stolen property to assault with intent to commit murder. They had passed all of their other tests when finally sorted out by the bureau of identification.

## Waverly Overseas Veteran Is Found Drugged In Street

WAVERLY, June 8.—While his heart-broken mother was trying to learn of his whereabouts, the police of Averyville, a suburb of Peoria, found Ferdinand P. Powers of this city, overseas veteran of the world war, unconscious in a clump of weeds in that village tonight.

Powers' father became critically ill several days ago and when it became evident that death was near his mother began efforts to locate her son, who had told his family when last at home, he was going to Jacksonville.

During his service overseas Powers received an injury to one of his eyes. The injury nearly caused the loss of sight and brought on a nervous trouble. For several months past Powers has been taking treatment in an army hospital in Chicago.

Some weeks ago he left the hospital and started, ostensibly for his home in Waverly. He became ill on the train and his condition was such that the conductor wired ahead and he was taken from the train at Jacksonville and became a patient at Passavant hospital.

This was about a month ago.

## JUNE CROP REPORT FORECASTS LARGE YIELDS FOR 1922

**Forecasts are Based on  
Splendid Growing  
Conditions**

(By The Associated Press)  
WASHINGTON, June 8.—Larger indicated crop yields, due principally to splendid growing conditions thus far this season, promise more abundant production this year than harvested in 1921, despite smaller acreage, especially in wheat and oats.

The department of agriculture's June crop report issued today and based on the condition of crop June 1, forecasts a winter wheat crop, the fourth largest in the country's history with a total of more than 600,000,000 bushels. During May the indicated production increased 22,000,000 bushels of which 11,000,000 bushels was credited to Kansas.

The spring wheat crop will be 49,000,000 bushels larger than last year's, with a total of 247,000,000 bushels, placing the country's total wheat crop, winter and spring wheat combined, at about \$35,000,000 bushels or 60,000,000 bushels more than was produced last year.

Production of oats is forecast at 1,305,000,000 bushels, or 244,000,000 bushels more than last year's crop.

Apples, peaches and pears are more abundant this year, last year's crops having been curtailed by frosts.

The apple crop is almost double what it was last year.

An apple crop of 179,800,000 bushels was forecast, compared with 98,000,000 bushels last year and 225,000,000 in 1920.

Large increases were forecast for practically all apple producing states.

## COMPILING OF TYPO VOTE NEARLY FINISHED

(By The Associated Press)  
INDIANAPOLIS, Ind., June 8.—The re-election of John McParland of New York as international president of the Typographical Union seemed certain tonight on the face of unofficial returns, union officers stated. The work of compiling and tabulating of the official vote will not be completed until Monday, it was said. McParland was leading his opponent, Walter W. Barrett, by more than 4,000, the unofficial returns showed.

The closest contest was between James J. Hoban of Cleveland, a candidate for re-election as second vice president, and William R. Trotter of Vancouver. Mr. Trotter was leading his opponent by more than 100 votes.

## LABOR TRADES WILL GO TO TRIAL SOON

CHICAGO, June 8.—Fred Mader, president of the building trades council; Timothy Murphy, head of the gas workers union and Cornelius Shea of the Theater Janitors Union and others indicted in connection with the recent slaying of two policemen by a party of bombers will go to trial within the next three weeks it was decided today. The date will be fixed on Friday.

## FOUR DROWN AT PICNIC THURSDAY

WAUSAU, Wis., June 8.—Three young women and a man who went to their rescue were drowned today in the Wisconsin river during a picnic of the graduating class of the Marathon county normal school. The dead are: Ethel Gerlich, of Wausau, Margaret Bradley of Stratford and Dorothy Hawks of Abbotford, and Martin Hennemann of Wausau.

The three girls ventured into deep water while bathing. Hearing their cries for assistance Hennemann tried to go to their assistance but all four drowned before further aid could be summoned. The bodies were recovered shortly afterward but efforts toward resuscitation failed.

## HOOVER REPLIES TO SENATORS ON PRICE OF COAL

**Says Government Action  
Has Prevented  
Runaway Market**

(By The Associated Press)  
WASHINGTON, June 8.—Agitation breaking out in the senate over the administration's efforts to keep bituminous coal prices from climbing during the strike was met tonight by Secretary Hoover with a statement asserting that "the essential thing about coal prices is that the runaway market has been stopped."

Except for "a small percentage of the present producers who have refused to co-operate," he contended prices have receded from the level reached on May 15 and public has been protected from a repetition of 1920 conditions. Precipitated by Senator Walsh, Democrat, Massachusetts, who declared that the public patience was being exhausted by coal operators taking advantage of agreements reached with Mr. Hoover to boost their prices to the retailers, discussion of the four statements. Senators suggested and opposed the practicability of government control of the mines as a solution of the conditions.

"Extortion is going on with apparent government approval," Senator Walsh declared explaining that he did not wish to criticize Mr. Hoover. The latter, he declared, had been "fooled" by the operators into approving a maximum fair price of \$3.50 a ton for coal at the mines.

"Some of the senators have been misinformed," Mr. Hoover said, "by misleading statements from a small group of retail dealers who object strenuously to any attempt to restrain prices."

**Makes Public Reply.**  
Mr. Hoover declared that the retailers had addressed the same figures to him as they had to the senators in describing the present coal situation and made public his reply to Homer D. Jones, Chicago, president of the National Retail Coal Merchants' association in which he took issue with the retailers' position that an advance of \$1.50 a ton for coal to the householder was warranted.

Assuming from the association's statement that it was opposed to any governmental policy controlling the production or distribution of coal Mr. Hoover expressed the belief that the association does not wish to co-operate in the prevention of profiteering in this time of emergency, and that "such a change of view after recent promises of co-operation did not represent the vast majority of retail coal dealers who are making every effort he said, to supply their customers without unusual profits."

"The retail coal dealers," Mr. Hoover declared, "could play a fine part in this emergency, if they would follow his suggestions that all coal be sold at cost plus a reasonable handling charge; the cheap pre-strike and contract coal to be reserved for the smaller household trade, steam and large domestic consumers to be supplied from current purchases plus a reasonable handling charge; co-operate to prevent mine prices for accept a maximum basis on the Garfield scale; and handle coal on straight lines from operator and wholesalers without speculative resales in the trade."

## PRESIDENT IS HAVING GOOD TIME

SOMERVILLE, N. J., June 8.—The President spent the afternoon on the Raritan Valley Golf Links and a quiet evening at the Fairhurst estate. In his afternoon (course) Speaker Gillett of the house of representatives and Senator Edge participated as well as the President's host while Mrs. Harding remained indoors.

The President's game was said by companions to have been good. The program for Friday including two set addresses one at the unveiling of a monument at Princeton, commemorating Washington's revolutionary campaign in New Jersey and one later at Princeton University was tentatively enlarged today by an agreement to say a few words from the back platform of his train at Trenton, while on the return to Washington.

The monument dedication was at Princeton, while the university speech, which will be in acknowledgement of the President of the tender of an honorary degree as Doctor of Laws, will be delivered at three o'clock.

## STATE RESTS IN GREEKS TRIAL

(By The Associated Press)  
QUINCY, Ill., June 8.—The state rested this afternoon in the case against the 29 Greeks charged with the death of Sheriff Lashbrook of Schuyler county, and one witness for the defense was heard. Thirty witnesses for the defense were sworn. Witnesses for the state testified they heard "the boys from Browning were coming down to shoot up the Greeks," and that bullets fired straight thru the window screen of the car could not have struck the depot where the sheriff was killed.

The witnesses testified that the eight bullet holes in the screen were made by shots from the inside and that these shots were straight and not at an angle as the broken wire showed. Others testified that only one bullet was found imbedded in the depot platform and two marks from shotguns. Several outhouses at some distance from the depot were hit.

## PROBE DISTRICT ATTORNEY'S OFFICE

Chicago, June 8.—A small army of investigators are working under Inspector G. Clabough, special agent of the bureau of investigation appointed to probe alleged irregularities in the district attorney's office it became known tonight with the arrival of three more investigators from Washington. There are now twenty agents going thru the records of the various departments including prohibition, post office, secretary service and internal revenue.

## WITNESS IN SMALL TRIAL TELLS ABOUT BANK CONSOLIDATION

**State Puts Vice President of Ridgely-Farmers Bank of Springfield on the Stand—  
Tells of Purchase of Stock of the Ridgely Bank in Springfield by the Defendants**

(By The Associated Press)  
WAUKEGAN, Ill., June 8.—Details of the transactions whereby Governor Len Small, the late Senator Ed C. Curtis and Louis L. Emmerson, acquired 1,373 shares of stock in the Ridgely National Bank of Springfield, and then consolidated that bank with the Farmers' National under the name of the Ridgely-Farmers State Bank, were presented to the jury at the governor's trial today. The state claims \$111,833.33 of the \$254,005 paid for the 1,373 shares of stock came from state funds loaned to Senator Curtis' Grant Park Bank, alleged to be a non-existent institution—and that when money was needed to finance the purchase of stock of the consolidated bank another \$200,000 of state funds was used. Of this \$200,000 the state claims \$136,920 went to pay for the stock and the bank gave Governor Small a cashier's check for the balance, \$63,080.

These checks and certificates were put into the record today and identified by Addison Corneau, vice president of the Ridgely-Farmers State Bank.

According to Mr. Corneau's testimony the late Senator Curtis began buying up the Ridgely stock in September, 1918, and by the following January had acquired 1,373 shares. Checks for each purchase were introduced by the witness, the state seeking to show that \$111,833.33 came from the state funds deposited to the credit of the Grant Park Bank.

On January 14, 1919, according to the prosecution \$500,000 was deposited by Lieutenant Governor Fred E. Sterling one of the governor's co-defendants who was then state treasurer in the Grant Park Bank. The following day Senator Curtis presented the state draft at the Fort Dearborn Bank in Chicago and took two cashier's checks, one for \$300,000 and the other for \$200,000. The latter was issued, the state alleges to pay for the stock in the reorganized bank the difference of \$63,080 being deposited to the governor's credit.

**Money Back to Treasury.**  
Later when the stock of the old bank had been liquidated at \$157 a share, the state charges that two checks totalling \$200,743 were given to Senator Curtis and deposited by him in the Fort Dearborn bank, the \$200,000 going back to the state treasury, and Senator Curtis taking a cashier's check for \$743, which according to the state it bears he cashed some six months later.

Mr. Corneau was still on the stand when court adjourned and his cross-examination will be continued tomorrow.

George Keyes another vice-president of the Ridgely-Farmers Bank will follow Mr. Corneau on the stand. Mr. Keyes was Governor Small's opponent for the Republican nomination for state treasurer in 1916.

Most of today was spent by the state checking up on odds and ends of its identification of the hundreds of documents introduced in evidence. A half dozen bank clerks were called to identify papers overlooked at previous sessions. Two Grant Park witnesses both directors of the Grant Park Trust & Savings Bank were put on the stand but their testimony added so little to the record that the court struck out the evidence of one witness as immaterial.

Governor Small took part of the tedious session in a sweltering court room but during the afternoon drifted out to talk to friends in the corridor and climbed the stairs to the attic to inspect a gallows.

## BULL DOG SAVES OWNER FROM BURGLAR

(By The Associated Press)  
PEORIA, Ill., June 8.—After a hand to hand battle with a burglar, Mrs. Caroline Sheridan, wife of Major H. K. Sheridan, was rescued tonight at her home, 123 Rebecca place by a pet bull dog who attacked the intruder.

In the second time Mrs. Sheridan has been attacked under similar circumstances. She is in a serious condition at her home, suffering from bruises about the arms and wrist and nervous prostration.

## LOCUSTS WILL DO NO HARM

CHICAGO, June 8.—The plague of 17 locusts was reported spreading from Chicago suburbs to surrounding farm territory today causing what government experts declared was needless alarm.

The locust, a red eyed, ferocious looking bug, was reported so thick thruout the Fox river valley that ordinary sounds during the early morning are drowned out by their humming.

According to crop experts the locusts are harmless and will cause no damage to crops their span of life being only about six weeks.

## BLANCHE SWEET MARRIED THURSDAY

Chicago, June 8.—Blanche Sweet, motion picture actress, and Marshall Neiland, her director, were married today and departed for New York to spend their honeymoon. The marriage took place at the office of County Clerk Switzer in the city hall with Judge Pomeroy officiating.

## FUNERAL SERVICES HELD FOR NOTED SINGER YESTERDAY

**Lillian Russell Moore  
Buried With Full  
Military Honors**

(By The Associated Press)  
PITTSBURGH, June 8.—In beautiful Allegheny Cemetery under sombre skies tonight lies that which was mortal of Mrs. Alexander P. Moore, the Lillian Russell of yesteryear and the wife of a Pittsburgh publisher. This city and greater cities knew the voice which rang sweetly to the farthest corners of the earth, and sent noted representatives to pay farewell tribute to one whose voice and kindly heart had made for her an honored place among the nation's women.

After a simple service at the home where were members of the family and a few near friends the ceremony being performed by Rev. Dr. Edward S. Travers, the hands of six stalwart sea soldiers bore the casket onward on its last journey to rest briefly in Trinity Protestant Episcopal Church.

Here also Rev. Dr. Travers performed the simple yet inspiring rites for the departed. A vested choir marched silently thru the auditorium to the choir stalls. The song which Mrs. Moore's favorite hymn, "Rock of Ages," was sung by the assembly in unison with the choir and at the closing, "My Faith Leads Up to Thee," The choir selection was "The Souls of the Righteous Shall Rest in Peace."

The congregation standing while the casket was borne by the marines from the church Chopin's Funeral March was sounded from the organ.

**Own Company Is Escort.**  
Arriving at the cemetery gates the funeral cortege was met by "those who came back" of the 107th Field Artillery an overseas organization of the World War which Mrs. Moore largely aided in equipping, and to which she gave their colors.

Members of the Downtown Post American Legion of which the deceased was a member by virtue of her rank as sergeant in the Marines during the late war, were represented and it was from their ranks that the firing squad was called.

With the firing of three volleys and the sounding of "taps" from bugler the body was tenderly laid to rest in the vault, where it will remain until a suitable mausoleum can be erected.

The honorary pall bearers included James J. Davis, secretary of labor; Senator Hiram W. Johnson, Mayor Magee, Howard Chandler Christy, E. P. Albee, president of the National Vaudeville Association and R. H. Burnside, president of the National Producers' association.

Beautiful floral offerings from men and women in many stations of life ranging from President and Mrs. Harding to the office boy of the Pittsburgh Leader, the publication of Mr. Moore, were received.

Farmers herabout are beginning to think that it wouldn't be bad thing after all, if chinch bugs were to be discovered in the numbers just as it is true in other countries. You see, chinch bug scare might boost wheat price from its somewhat depressed present day level.  
It is announced by the Interstate commerce commission that the railroads have authority to make lower freight rates, effective on three days' notice. So far as patrons of the roads are concerned, a twenty-four hour notice will be satisfactory and they have might consent to having that time shortened.  
South Jacksonville is in some ways a village sufficient unto itself, even if dependent upon Jacksonville for its sewerage outlet. Yesterday the village had a fine shower, while there was no rain fall in Jacksonville. Michigan avenue was the dividing line of the rain belt. Perhaps Jacksonville's turn will come on another day.  
The record of Jacksonville business men in the payment of dues to the chamber of commerce is equalled by only one other city in the state of Illinois. The Morgan county farm bureau holds a record of the same kind in the state, by comparison with the other counties. The business men of Morgan county and Jacksonville have the habit of living up to their obligations and of going thru with the programs that they undertake.

This mooted question of bathing in the lake when that is the source of the city's water supply will be settled when the swimming pool has been constructed. Then no one will want to bathe in the lake proper and the water from the pool can be handled in such a way that there will be the certainty of no contamination of the city's general supply.  
Chief Justice Thompson of the Illinois supreme court has courtously delayed answer to the Douglas county Democrats, who suggest that he be a candidate for the Democratic nomination for the governorship.  
Justice Thompson having wisdom beyond that accorded to most men of his years, will probably think of this matter quite seriously before acceding to the suggestion. Running for governor in Illinois on the Democratic ticket has not often led to success. Anyhow it is quite doubtful whether the honor of the governorship excels that of membership in the supreme court of this state. Justice Thompson's record there, by the way, has been such as to accord him a large amount of praise.  
**A COMPARISON OF GOVERNMENTS.**  
"Under a constitutional government like that of the United States, where individual enterprise is given every opportunity and every encouragement, the advantages are in striking contrast with the discouragements of a communistic plan of government such as now exists in Russia," says the Republican Publicity Association.  
"Americans take so much delight in recording the attainments of those who start out in life with no aid except their own individual ability and energy that one might almost reach the conclusion that there is little opportunity for the son of a wealthy family. The attainments of those who rise from modest surroundings are so widely heralded that there might almost be an impression that the young man of wealthy antecedents stands little show of making a success by his personal efforts."  
"The fact is, however, that under the assurance of equal opportunity which a constitutional government affords, where property rights are respected and protected, there is practically no limit to the success that may be attained by either the rich or the poor. In the last few years, two young men of well known families have attained national prominence entirely thru their own ability and efforts, notwithstanding their families were possessed of unusual wealth. One of these young men is John Hays Hammond, Jr., who has invented many devices in connection with wireless control of seacraft. The other is Sherman M. Fairchild of New York, who has attained a world wide distinction by inventions in aerial photography.  
"So far as gaining a livelihood is concerned probably neither of these young men needed to do any work whatever. They could have gone into some line of business where their invested capital would have brought them a sure and steady income without any personal exertion on their own part. They chose rather, a career that required the most exacting personal attention, and, as a result of their efforts, have contributed to the world's store of scientific knowledge and have benefited mankind for all time to come.  
"There would have been neither encouragement nor opportunity for either of these young men under a bolshevistic form of government. Having their money taken away from them would have hurt them least of all. They were using not their money but their brains. A communistic government exerting the right to nationalize everything, would have undertaken to tell them in what occupation they should engage and probably would have set one of them tilling fields and the other bearing a rifle in a soviet army."

R. S. Wood, whose farm home is at the east end of Manassette lake, was awakened about 4 o'clock one morning recently by the sound of an explosion. He was unable to locate the sound of the noise at the time. A few hours later he noticed a great many dead fish floating on the lake not far from his home, and so believes that someone was fishing with dynamite. Mr. Wood's thought is that after the explosion this depredator gathered up all the fish he could quickly and made his get away.

**TRAINING CAMP OPEN TO BOYS OF COUNTY**  
No Jacksonville Applicant So Far For Admission to Camp Custer Training Camp—Many in County Avail Themselves of Opportunity.  
Dr. Paul Allyn of Waverly is regretful because no Jacksonville boy has made application for admission to the citizens' military training camp to be held at Camp Custer August 2 to Sept. 2. Dr. Allyn is the chairman for Morgan county and is endeavoring to attract the attention of boys in all parts of the county who are eligible for this training.  
Applications have been received from a number of boys in Waverly, Murrayville, Meredosia, Concord and Franklin. About twenty-five Sangamon county boys have filed applications with the Sangamon county representative.  
The local chairman is Dr. Garm Norbury and he will make examination free for applicants at his office in the Ayers Bank building and will forward same to Major Edwards in Chicago.  
Dr. Allyn will be glad to furnish any desired information. The names of Morgan county boys who have made application for admission are:  
Waverly: Paul Brian, William Knight, James Edgmon, Harold Burns, Winifred Garman, Murrayville—Clarence Spencer, Roy Carlson, Franklin Kennedy, Meredosia—Andrew Hyde, Concord—Warren Brockhouse, Franklin Oliver, Hocking, Francis Tannehill.  
The following facts with reference to the training camp were furnished for publication by Dr. Allyn:  
**Purpose.**  
The aim of this and similar camps is to promote good citizenship and an interest in national defense. The War Department plans to bring together young men of all occupations on a basis of equality under the most favorable conditions of outdoor life.  
**Who May Attend.**  
The camps are open to all men between the ages of 17 and 35 years, who are of sound character, intelligence and physical condition.  
**All Expenses Paid.**  
The Government will pay all expenses of those attending this camp, including transportation, uniforms, food and medical care. Each candidate will pay his own transportation to the camp and be reimbursed upon arrival at the rate of 5 cents a mile.  
**No Service Obligation.**  
Enrollment at the camp, implies no later service obligation.  
**The "Plattsburg Idea."**  
The training at Camp Custer will be carried on in the spirit which infused Plattsburg and the other prewar camps. The idea of virile American manhood will be strongly emphasized in this and all similar camps. Devotion to country, good comradeship "teamwork" and a feeling of democracy coupled with a high respect for good discipline and morale will be throughout controlling aims.  
**Military Training.**  
Training and instruction will include the initiation of all who attend into the elementary duties of the soldier and the ordinary routine of camp life. There will be squad platoon and company drills; small arms practice; guard duty; camping and marching; individual cooking; care of equipment and actual problems in minor tactics.  
**Physical Training.**  
"The supreme aim of Camp Custer will be the physical well being and development of all who attend."  
**Recreation.**  
Full provision will be made at camp for the wholesome and interesting employment of all leisure time. There will be lectures, moving picture programs, amateur and professional musical and dramatic entertainments with full use of Post Exchange facilities, mail service and a club room.  
**Equipment.**  
Each candidate will bring to camp one piece of hand luggage containing shaving and toilet articles; four suits of underwear; two pair of pajamas; six pairs of socks, six handkerchiefs; four face towels. It will be well also to bring athletic uniforms and equipment, musical instruments and bathing suits, in so far as each has these articles. Military clothing and equipment will be furnished and laundry service provided free.  
**Location.**  
Camp Custer is one of the favored spots in the military establishment of the United States, located in the midst of beautiful natural scenery, in a country full of interesting associations from the days of early Indian Warfare and in the near vicinity of one of the most delightful cities of the mid-west.  
**Morale.**  
Camp Custer is a place to which young men can go with the confidence and justified expectation of finding the best ideals of the true American community. Chaplains and Hostesses of the Regular Army will be especially detailed for the training camps. Voluntary religious exercises will be held on appropriate occasions for men of all faiths. There will be ample opportunity for the reception of home visitors. In every possible way there will be cultivated a high sense of patriotic devotion and fidelity to the basic virtues of the American citizen.  
**Choice of Service.**  
Applicants will be given their preference in the seven branches of service: Infantry, Cavalry, Field Artillery, Engineers, Coast Artillery, Signal Corps and Air Service.

**SCOTT COUNTY RESIDENT PASSED AWAY THURSDAY**  
Death of Mrs. Neal Thorpe Came Thursday Morning After Long Illness—Was Mother of Local Residents.  
The death of Mrs. Neal Thorpe came at 7:45 o'clock Thursday morning at the home of her daughter, Mrs. James Woodall, three miles west of Manchester. The deceased had been in ill health for an extended period and death was therefore not unexpected.  
Mrs. Thorpe was sixty-five years of age and had spent most of her life in Scott County. In early girlhood she was united in marriage to Neal Thorpe, who passed away last October.  
Surviving are the following sons and daughters: Edwin, Thorpe, residing in California; Dee Thorpe, of Beardstown; Mrs. George Argus, Tomahawk, Wis.; Mrs. Walter Lewis and Mrs. Irvin Watt, Jacksonville; Mrs. Grace Winchester, St. Louis; Mrs. James Woodall and Mrs. Calvin Sims, residing near Manchester.  
The deceased is also survived by her father, John Read, of Perry, Ill., now ninety-seven years of age, and the following brothers and sisters: Mrs. Bertha Dale, California; Mrs. Ida Gliner, Bloomington; Mrs. Ruth Briggs, Mt. Sterling; Philip Read, Perry; Gilbert Read, California.  
The funeral is to be held at 2 o'clock Sunday afternoon from the M. E. church at Winchester and interment will be made in the Winchester cemetery.

**LARGE ALLIGATOR GAR IS KILLED**  
Thursday A. E. Savose and Walter Daugherty of Naples killed a large alligator gar in Smith Lake, north of Naples. The fish measured 6 feet, nine inches in length and weighed 100 pounds.  
During the high water a muskrat was caught in the sloughs and was left in the sloughs and eating the other fish.  
Fishermen at Naples say there is another gar even larger than this one in the lake and they are planning to kill it also.  
**PEANUT ROASTER CATCHES AFIRE**  
Some excitement was caused at the southeast corner of the square Thursday when the peanut and popcorn roaster in front of the Jacksonville candy store caught afire. While the owner was engaged in roasting popcorn a grain caught fire and fell into the hopper which was soon in flames. The roaster was damaged considerably before the blaze was extinguished.

**ANNE WAKELY JACKSON COMPOSITIONS GIVEN**  
On Monday evening, June 5th, a Lindsay poetry festival was given at the Y. W. C. A. in Springfield by Frank Waller Allen and was largely attended and greatly enjoyed. Mr. Allen gave examples of every phase of the poetry of Vachel Lindsay. The closing selection of Mr. Allen's program was the poem, "I Know All This When Gipsy Fiddles Cry," which Mr. Allen said, symbolizes the eternal search for freedom and beauty by all who follow the open road. He read the noted "Daniel Jazz" poem which has been quoted and written about so widely in the past year. The first half of the program, consisting of the more conventional pieces of the poet, was ended with "Abraham Lincoln Walks at Midnight."  
Mrs. Stella Westen Berger, accompanied by Mrs. Esther Skoog Wolaver, sang two groups of the lyrical Lindsay poems. The first group was set to music by Anne Wakely Jackson, of Jacksonville, and the second by Horace Alden Miller. A great deal of interest was shown in the first group of songs which Mrs. Westen Berger sang, not only because the words were written by Mr. Lindsay, but for the reason that the music was composed by Miss Jackson, of Jacksonville, who has distinguished herself with this work. These songs are "The Lead-eyed," "Ghosts in Love" and "The Moon's the North Wind's Cookie." These songs were enthusiastically received and Mrs. Westen Berger had to give an encore. Mr. Allen then asked her to sing Miss Jackson's setting of Mr. Lindsay's "Potato Dance," which captivated the audience. After the reading of more poems, Mrs. Westen Berger gave the two songs by Mr. Miller. For an encore, Mr. Allen asked her to give the "Dirge for a Righteous Kitten," composed by Miss Jackson which took with the audience immensely.  
Miss Jackson was asked to be present at this Lindsay evening and play the accompaniments of her songs for Mrs. Westen Berger but was unable to get away.

Farmers herabout are beginning to think that it wouldn't be bad thing after all, if chinch bugs were to be discovered in the numbers just as it is true in other countries. You see, chinch bug scare might boost wheat price from its somewhat depressed present day level.  
It is announced by the Interstate commerce commission that the railroads have authority to make lower freight rates, effective on three days' notice. So far as patrons of the roads are concerned, a twenty-four hour notice will be satisfactory and they have might consent to having that time shortened.  
South Jacksonville is in some ways a village sufficient unto itself, even if dependent upon Jacksonville for its sewerage outlet. Yesterday the village had a fine shower, while there was no rain fall in Jacksonville. Michigan avenue was the dividing line of the rain belt. Perhaps Jacksonville's turn will come on another day.  
The record of Jacksonville business men in the payment of dues to the chamber of commerce is equalled by only one other city in the state of Illinois. The Morgan county farm bureau holds a record of the same kind in the state, by comparison with the other counties. The business men of Morgan county and Jacksonville have the habit of living up to their obligations and of going thru with the programs that they undertake.

**TRAINING CAMP OPEN TO BOYS OF COUNTY**  
No Jacksonville Applicant So Far For Admission to Camp Custer Training Camp—Many in County Avail Themselves of Opportunity.  
Dr. Paul Allyn of Waverly is regretful because no Jacksonville boy has made application for admission to the citizens' military training camp to be held at Camp Custer August 2 to Sept. 2. Dr. Allyn is the chairman for Morgan county and is endeavoring to attract the attention of boys in all parts of the county who are eligible for this training.  
Applications have been received from a number of boys in Waverly, Murrayville, Meredosia, Concord and Franklin. About twenty-five Sangamon county boys have filed applications with the Sangamon county representative.  
The local chairman is Dr. Garm Norbury and he will make examination free for applicants at his office in the Ayers Bank building and will forward same to Major Edwards in Chicago.  
Dr. Allyn will be glad to furnish any desired information. The names of Morgan county boys who have made application for admission are:  
Waverly: Paul Brian, William Knight, James Edgmon, Harold Burns, Winifred Garman, Murrayville—Clarence Spencer, Roy Carlson, Franklin Kennedy, Meredosia—Andrew Hyde, Concord—Warren Brockhouse, Franklin Oliver, Hocking, Francis Tannehill.  
The following facts with reference to the training camp were furnished for publication by Dr. Allyn:  
**Purpose.**  
The aim of this and similar camps is to promote good citizenship and an interest in national defense. The War Department plans to bring together young men of all occupations on a basis of equality under the most favorable conditions of outdoor life.

UNION OFFICIAL FAVORS BOARD TO SETTLE STRIKES

(Continued from Page One.) naval wage board at Washington had agreed to continue until next January 1, the wages of 40,000 navy yard employees that were fixed by an agreement that expires next September 15.

The metal trades department also went on record as favoring the establishment of cost finding agencies, both federal and state, declaring it was a "notorious fact that in some staples the selling price is 300 to 500 per cent more than the combined items of labor costs and all overhead manufacturing expenses."

The meeting of the union label trades department was marked by the presentation of officers' reports. President J. W. Hayes declaring that the year had been marked by the open shop movement adopting a label, which action, he said, was caused by the union movement for purchase only of union labeled wares. The union label, he said, had not been requested during the last year to the extent that he said it should have been.

"Nothing," he said, "can so surely guarantee peace in the workshop as the use of the union label, the union shop card, and the union button. The use of these emblems signify contractual relations covering wages and working conditions and in spite of the ravings of the anarchistic employer and the rabid non-union press, contract provisions seldom are broken by members of labor organizations or by the organizations."

TELEPHONES PRIZED BY JAPANESE TOKIO.—A telephone instrument is one of the most prized possessions of a foreigner in Japan under the government system the instrument is sold outright to a subscriber and as the government's supply is apparently never replenished, it is next to impossible for a new subscriber to have one installed, applicants who sent in the order even ten years ago still waiting to have their request complied with.

As a result instruments, ownership of which carries with it the right by payment of a small fee to have it moved or transferred to another individual, are held at a high price. In Tokio for example an instrument is valued anywhere from \$700 to \$1250.

WILL PRESENT ANCIENT HAWAIIAN LEGEND

(By The Associated Press) HONOLULU.—A dramatic presentation of the Hawaiian legend that accounts for the Nuuanu Pali or scenic gap that occurs in range of volcanic mountain formation on the island of Oahu was given here as one of the events that marked the inauguration of Washington Place, former home of Queen Liliuokalani, as the official residence of the governor of Hawaii.

The Pali, regarded as the greatest scenic attraction Oahu has played a large part in Hawaiian history. It was there that decisive battle in King Kamehameha's campaign to unite the islands was fought. Kamehameha's forces vanquished the defending army of Chau and driving it over the cliff to destruction on the rocks approximately 1,000 feet below.

The legend as presented at the housewarming by the Sons and Daughters of Hawaii, was that the mountain range was once broken Kamehameha a beautiful Hawaiian maid, and her lover, Keanihula-o-kalani, had parted. A "kahuna," (medicine man) advised her to learn to dance and sing, and said these accomplishments would bring her lover back. In the mountains Kamehameha toiled at her singing and dancing lessons unceasingly. When it was announced that she would display her skill, the people crowded up the mountain to watch her dance and listen to her songs. A flower dropped at her feet as she sang told her that her lover had returned. The applause of the people at her performance, and reunion was so great that the concussion caused the mountain range to split and form the Pali, according to the myth.

A series of receptions throughout the day and night and musicales, in which Hawaiian music and modern selections were mingled were other features of the housewarming. Washington Place has been Queen Liliuokalani's home for sixty years.

Strikes fomented by the new labor unions are becoming common in Korea.

BELLEK FORTRESS WAS TAKEN THURSDAY BY ENGLISH TROOPS

Attacking Force Had But One Man Injured in Action

(By The Associated Press) BELFAST, June 8.—Belleek and its famous fort which are in free state territory, were occupied this afternoon by British troops and the British ensign has displaced the Republican tricolor which had flown from the walls of the fort since it was occupied some time ago by Irish irregular forces. The British troops moved to within two miles of Belleek on the south shore of Lough Erne and started operations.

The artillery took a position overlooking the town and commanding a fine view of the fort which is on high ground. The official report of the military authorities on the operations is as follows:

"Orders were received to discover whether forces from the free state were still in occupation of Belleek. Strict orders were issued that free state territory was not to be entered unless fire was opened upon the troops while in Ulster. Water transport was arranged as the stretch of road entering the town from the south is in free state territory.

"The infantry divided into two columns, one column on each side of Loughenne. Armored cars were sent ahead to reconnoiter. These were fired on from the free state while still in Ulster. The infantry then advanced under a brisk fire from the north. The artillery shelled the fort and also the ridge to the north from which fire had been directed on the northern column and Cliff House, the headquarters of the forces occupying Belleek.

"Our fire was very accurate and the enemy retired at 3 o'clock this afternoon after an advance column entered Belleek. Our casualties were one man injured. The enemy's losses are not known.

"The fort was taken by a platoon of the Lincolnshire regiment, which captured the tri-color flying from the main wall. The wall was badly damaged by six direct hits out of a 20 high explosive shells which were fired."

EMPORIA, Kas., June 8.—A boy who would take a stray dog to the city pound to be killed for a quarter is too mean to live himself, William Allen White, author and editor declared in a statement today in his paper, the Emporia Gazette.

Mr. White's protest in behalf of the dogs was evoked by an offer of 25 cents a head for dogs brought to the city pound by boys.

## MAKES ADDRESS ON AMERICAN HOSPITAL

Rev. C. B. Moulton of Milwaukee Delivers Address at Peacock Inn—Tells of Progress in Hospitals in United States in Recent Years.

Although the notice given was so brief, still a good sized audience gathered at the Peacock Inn last evening to hear Rev. C. B. Moulton of Milwaukee, president of the American Catholic Hospital association, deliver an address on the "American Hospital."

The reverend gentlemen had been called here to inspect the recent addition to Our Saviour's

Hospital and was prevailed upon to make the address.

He was introduced by Dr. C. E. Black of this city, and said in part:

"The American hospital is a broad and interesting subject. Our country stands first in hospital work, away ahead of Europe and South America. In British hospitals the physicians and nurses are excellent, but the hospitals and appliances are far inferior to ours. The hospitals in the United States are a grand achievement and due largely to the influence of the medical fraternity. Our physicians have been progressive and have accomplished much."

There are in the United States 8,000 hospitals of which 800 have each one hundred beds and upward. The movement for better hospitals began some eighteen years ago when the doctors decided to treat the public to a better trained corps of nurses and physicians, and to educate the people when sick or wounded to go where they can receive the best treatment. The public school should be as well educated in this respect as the fraternity. Many people show small wisdom in matters of medicine, but I think in this respect the public is getting better. No two doctors are exactly alike, nor are any two hospitals, but a great work is being done in the matter of improvement and prompting a higher conception of the duty of educating physicians and nurses for their calling.

We are all right physically when each member of our bodies properly performs its function. When we eat, sleep and exercise normally, all is well, but if you are lax in any of these something goes wrong. Today the medical student would attain a place in the foremost rank of the profession is expected to study eight years and after that to take a year or two years as interne before he is admitted to the fraternity and some schools even demand two years as interne and post graduate work also. From this we may see the great progress made within the last twenty to thirty years.

**Diagnosis Important**  
It is the highest importance that a doctor should know how to make an intelligent diagnosis, and a great effort is being made to bring hospitals up to the highest standard of service. A hospital should be organized and prepared to give the highest grade of service. There is no excuse today for any doctor not keeping up with the times. The

best books are abundant and a great many valuable periodicals and papers are published, so that when a physician keeps up with the best literature of today he is well posted.

A community may be judged by the manner in which it sustains its hospitals. Jacksonville has an abundance of institutions for the amelioration of afflicted humanity. You have the Jacksonville State hospital and you have other good hospitals of the best quality and are to be congratulated on your facilities for caring for suffering mankind, while the schools for nurses are producing those who ably second the efforts of the physician in restoring to health the sick and wounded.

A sick or wounded person has the right to the best care that can be given him by a hospital, and in order to secure that a community must properly sustain the hospital and foot the necessary bills, and in so doing it will have an abundant return on its investment.

Hospitals should have for their object the prevention of diseases as well as alleviation and cure, and to that end better nurses, better appliances, better buildings, better facilities and progress in the work, are constantly demanded.

People often use poor judgment in medical matters. Far too frequently they consult those not qualified to diagnose a case or prescribe for it after it is diagnosed. To that end the greatest of care should be taken that no one will attempt to deal with suffering humanity who is not thoroughly qualified. And if the public will demand a high form of service and rigid exclusion of incompetent would-be practitioners, it will get it.

The American sentiment is naturally right if properly educated and guided. When a doctor gets sick he knows where to go to get the best treatment and the public should be equally well educated in that respect. The people should be educated to stand by the hospitals and see that they succeed and have facilities for rendering the best service possible. I feel very certain that the hospitals in this city will deservedly rank with the standardized institutions of the land.

The sentiment in favor of post-mortem examinations is growing. It is right and proper and the opposition to it is ill-founded. It is just to the attending physician and just to the people also that every possible light may be thrown upon every case in order that the next one may be treated more intelligently.

**MORGAN COUNTY BOYS MAY ATTEND STATE FAIR SCHOOL**

Two Morgan county boys are to have a chance to attend the Boys' State Fair school in Springfield during the fair, Sept. 15 to 23. Supt. of Schools H. H. Vasconcellos has been asked to appoint these boys and has decided to choose the boys whose grades were highest in the recent eighth grade examination. In case these boys are unwilling to attend, it is probable that a commission will be named to do the selecting.

**FALL FROM SCAFFOLD**  
Earl Hoover of 502 West College avenue and a man by the name of Hudson, residing on South Clay avenue, fell twenty feet from a scaffold on which they were working at the residence of Matthew Miller, 503 West College avenue yesterday morning. Mr. Hoover sustained severe bruises and is confined to his bed, while Mr. Hudson suffered considerably from the shock of the fall. However, nothing serious is expected to result from the injuries of either man.

## TAKE ALONG A BOOK, ADVICE OF LIBRARY

This is the time of the year when everyone is thinking where he or she will spend their vacation and what they will do with the extra time on their hands. The public library will help you decide by allowing you to take with you on your vacation twelve books from June 1st to Oct. 1st. There is always some spare-time when you wish for just the right book for the moment whether it be a book of light fiction to while away an idle hour or a book of travel or biography. For the children there is the book for mother to read aloud as they sit by the side of the lake; a book of adventure for the boy; a good story of school life for the girl and then the books which give boys and girls inspiration and knowledge. Time is never wasted which is spent studying the different kinds of birds, flowers and the trees one finds in the surrounding country.

The public library will try to supply all and every demand of this kind from fiction to non fiction. Be sure when planning your itinerary to think of books and "Take Along a Book."

## MANCHESTER CATTLE ON ST. LOUIS MARKET

Manchester, June 8.—Ernest Murray shipped a car of fine fat cattle to St. Louis this week.

Mrs. J. E. Blakeman, Adelia and John, Jr., were guests on Wednesday of Mrs. Blakeman's mother, Mrs. D. C. Arnold, Misses Esther and Vermae and Master Leonard Blakeman of Jacksonville the latter at Business college.

The ladies of the Christian church will have an all day meet on Thursday, at which time they will among other items of work stem gooseberries for Mrs. Henry McCracken.

Eugene Rochester is home from his school in the north part of the state.

Morgan Store is again installed as clerk in J. F. Travis' hardware store. Mr. Store left the store several years ago for outdoor or farm work. Henry Heron has been employed there for some time.

Frank Lorton and family of Lorton's Prairie have been visiting Henry Hudson and family.

Mrs. Sarah Greenwalt returned to her home here after a week or two in Jacksonville where she was taking treatment. Mrs. Greenwalt is much improved in health.

John Seal and daughter Golda were guests from Jerseyville on Sunday at the home of Jesse Seal.

Mrs. H. G. Duncan and Mrs. Elfred Murphy of Roodhouse spent Tuesday with Mrs. John Duncan.

Mrs. W. U. Pearce and Mrs. Alice Wallis were in Jacksonville Monday.

Miss Lula Sloan made a brief visit to the city of Jacksonville Monday.

## TROTZKY TAKES COURSE AT WAR COLLEGE

Moscow.—(By the A. P.)—Leon Trotsky, the Bolshevik War Minister, desirous of perfecting himself in military technique, has completed a course in the staff college of the Red army. He has passed the standard examinations and is now qualified as an officer. The examinations were given him by officers of the old Russian army.

How Trotsky, who is one of the busiest men in Russia found time to do this has been a surprise to his more easy going associates in the Soviet government. He works from early morning until the evening, but takes time for regular exercise, the study of languages and voice culture. He has developed the vocal abilities of a field marshal, and when called upon to address thousands of troops in the open air, his strident voice is heard even by the rear ranks.

Leon Trotsky has developed great executive ability and he never concerns himself with petty details. He exacts from his subordinates the most meticulous precision. He keeps appointments promptly, thereby differing from other Soviet officials, and he confines his business dealings to reasonable day time or early evening hours. Sometimes he sets appointments for, say, 4:27 p. m., to last three minutes, and insists that this does not mean 4:25 or 4:30.

## AMERICAN SCIENTISTS BEGIN EXCAVATIONS

ATHENS.—American scientists have begun excavations upon the ancient site of Colophon, in Asia Minor. The work is being conducted jointly by the Fogg Museum of Art, of Harvard University, and the American School of Classical Studies at Athens, the former represented by Miss Hetty Goldman of Bryn Mawr, and the latter by Dr. Carl W. Blegen, of Yale.

Colophon lies about half way between Smyrna and Ephesus. The school was awarded its two annual fellowships, each carrying \$1,000 for a year. One goes to Franklin Clark Fry, of Hamilton College, and the other to Philip Haldane Davis, of Princeton University. These men will reside in Athens next year as students of the school.

ALTON, Ill., June 8.—A class of 62 cadets was graduated from the Western Military academy here today. The commencement day program included exhibition drills in the morning, delivery of the commencement address by Rev. E. Combie Smith of St. Louis with a reception this evening. Class day was celebrated yesterday with the presentation of the class play "Officer 666," and a concert by the cadet musical organization.

## PLAN BETTER GOVERNMENT

Bill to Give Wales and Scotland Better Government Introduced in House of Commons.

London.—By the A. P.—A bill "to provide for the better government of Scotland and Wales, and for other matters relating thereto" has been introduced into the House of Commons.

This action follows upon renewed talk in some quarters of "home rule around." In other words autonomy for Scotland and Wales as apart from England proper, and is a direct outcome of the birth of the Irish Free State. Prime Minister Lloyd George, himself a Welshman, has indicated that he would not oppose a comprehensive home rule measure.

According to the present proposals, Parliaments each consisting of two chambers, would be set up for Scotland and Wales. The Lower House, in the case of Scotland, would be equal in membership to the present representation at Westminster and elected by the same constituencies. The Lower House in Wales would consist of twice the present representation, each of the Welsh constituencies being divided into two. The Upper House of the Scots Parliaments would be elected by the Lower House in accordance with a plan proposed by Lord Bryce's Committee, and would number 36 members. The Welsh senate also would have 36 members.

Provision is made in the bill for joint sittings in the event of disagreement. Representation of Westminster is to continue unchanged pending the application of devolution to England.

URBANA, ILL.—The last of a series of five district meetings at which representatives of all the county farm bureaus of the state met with the officials of the Farm Bureau Decennial Celebration, to be held at DeKalb on June 30, was completed here today.

Other meetings, held earlier in the week, were held at Galesburg, Lawrenceville, East St. Louis and Springfield.

Estimates from the 95 county farm bureaus represented at the conferences indicate that thousands of Illinois farm bureau members will be at DeKalb to celebrate the tenth birthday of the farm bureau movement in the state, it was stated.

More than one thousand from fifteen county farm bureaus have been pledged as members of the "Fast of the Pageant," "Forward Farm Bureau," which will be the feature of the celebration.

Each county is preparing to contribute to the program of the celebration.

## Reasons Why the John Deere is the Better Binder

All of the working parts are more accurately and substantially made. The working parts of the binder head are cut steel, case hardened.

The one piece steel platform is riveted to angle bars front and rear with four angle steel cross bars.

All main bearings are roller bearing, self aligning. The bull wheel is heavier, wider and higher.

Has three packers, one of which reaches higher after the butte of grain, thus saving grain.

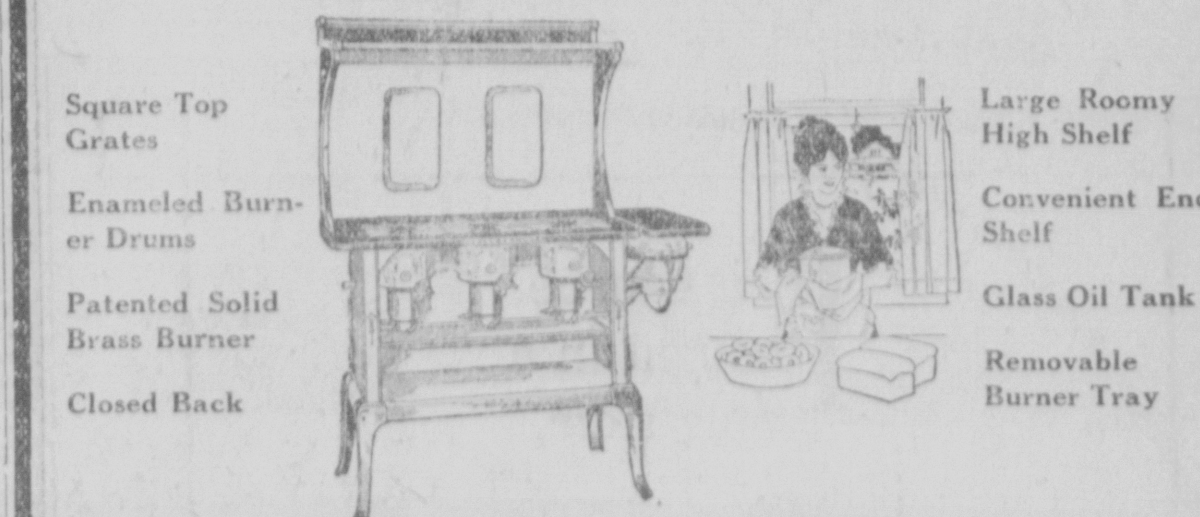

The truck is much stronger, having trussed steel stub tongue, flexible axle and is quick turn.

The bundle carrier is very strong, being a new type that does not scatter bundles and works very easy for the operator.

## ALCAZAR Kerosene Gas Cook

**Cooks and Operates Like a Gas Range Makes Gas from Kerosene**

Note the features. Really more of a Gas Range than an Oil Stove, is the Alcazar Kerosene Gas Cook. This stove does not burn oil off the wick as does the ordinary oil stove. The Alcazar burner raises air with the kerosene and makes a gas. You burn the gas, not the oil. The gas makes a powerful blue flame which is concentrated directly on the cooking vessel where it is needed. The heat is not spread and partially lost as with the ordinary Oil or Coal Stove. It all goes for cooking and baking. This means your cooking done quicker and less oil consumed. Also a cool kitchen in hot weather. Burning gas instead of oil insures a clean, sweet kitchen and a clean stove and pleasant cooking. You'll save money instead of burning it when you have the Alcazar Kerosene Gas Cook. You'll lighten your cooking tasks too and make things easier for yourself. Let us show you this stove. Note how well it is made—"A Beauty," you will say.

### BUREAU AGENT MEETS C. OF C. DIRECTORS

Conference Was Held Thursday Night—Budget For Year Considered—Two Committees Named.

Directors of the chamber of commerce met Thursday night with President Rowe presiding. J. H. McLaughlin, field representative of the American City Bureau, was present and in an informal way made his report to the directors of the conditions as he had found them and the record of the year.

There have been but thirteen delinquent members and the report indicated that the subscriptions of some of these might still be paid. Mr. McLaughlin said that there was only one other city in the state which has been able to make a report equal to Jacksonville. In Kankakee 98 per cent of the subscriptions were paid and here the record was 94 per cent.

The directors spent some time in discussing a budget for the coming year, but final action was postponed for another week. The finance committee was reorganized with the naming of Henry Frisch, chairman; E. A. Brennan, H. M. Capps, T. A. Chapin and John S. Hackett.

The directors appointed J. H. Dial as chairman of the forum committee and at the next meeting a committee on committees will be named. It was indicated as a wish of the directors to name a number of new committee members in order to divide up the work of the organization.

An invitation was extended to the Spanish American War Veterans to hold the next annual meeting in this city.

The report of the membership drive up to date indicated thirty two new members. There are five soliciting committees that have not yet made report and none of the other committees have made complete report. It is expected that the whole campaign will be concluded today.

Various matters relating to business and policy were discussed before the time of adjournment.

### PERFORMS UNIQUE FEAT

H. H. Newman while building a driveway at his home north of the city recently transplanted a cherry tree that was in the way, rather than cut it down. The tree was twenty-five feet high and in full bloom. It was planted about one hundred feet from where it was dug up. The tree is now bearing one of the largest crops of fruit it has yet had and is thriving well. This is very unusual as it is considered well nigh impossible to transplant so large a tree in full bloom with success.

#### Entertain Routt Faculty.

Mrs. John Coonan of East North street entertained the members of the Routt College faculty last evening at a picnic supper given at Nichols Park. All the members of the faculty were invited and the affair was one of the enjoyable events of the commencement season. Mr. Coonan is a member of the Routt faculty.

#### Enjoy Picnic at Tholen Home.

The girls in the office at Illinois Woman's College enjoyed a delightful picnic and outing at the home of Miss Mabel Tholen on West Lafayette avenue. They went out to Miss Tholen's home about five thirty o'clock and after enjoying a social hour a fine picnic supper was served. The girls had invited a number of guests from the college including Miss Winnie Wackerle, Miss Sarita Jones, Mrs. Alice Edmonson, Mrs. Maude E. Moore, Miss Lula Short and Miss Ruth Esparza.

#### Hostess at Bridge For Miss Miller.

Mrs. C. N. Priest and her daughter Miss Eula Priest were the hostesses at a bridge party given yesterday afternoon at their home on West State street in honor of Miss Willella Miller. Twelve tables of cards were made up and the hours spent in playing At the close of the cards an attractive luncheon menu was served. The Priest home was made even more attractive by the use of quantities of garden flowers and the generous hospitality of the hostesses made the affair a most delightful one. The guests who were present from out of the city were Miss Evelyn Galford of Clear Lake, Iowa; Mrs. Hattie Potter Marsh, of Chicago; Mrs. Alfred Fraser, of El Paso, Texas; Mrs. Mary Masters Newcomb, of Indianapolis; Mrs. M. W. Sappington, of Winchester, and Mrs. Rufus Funk of Bluffs.

#### Hosts at Dance.

Mr. and Mrs. Fred Killham entertained a number of their friends last evening at their home west of the city. The affair was a dance and the evening was generally spent with dancing and a general good time. Genuine hospitality and good cheer were evident all thru the evening and the guests all had a delightful time. An excellent supper was served at a late hour. The guests included a number of carloads of Jacksonville people.

#### Hostess to Literberry Aid.

Mrs. M. M. Crum of this city entertained the members of the Literberry Ladies Aid society yesterday afternoon at her home on South Diamond street. The affair was an all day meeting and there were about twenty five guests present. At noon a delicious four course dinner was served, the menu consisting of all kinds of good things to eat.

During the afternoon Mrs. Byron S. Galley gave a most interesting talk on her recent trip in the Far East, telling of her travels in China, Japan, the Hawaiian Islands and other places of interest. Mrs. Durrell Crum played a number of piano selections and the rest of the time was spent in an informal social way.

Mrs. Crum was assisted in entertaining by her daughter, Ed Litor, and by Miss Earl Reed, Mrs. Earl Dunlap and Miss Elizabeth Martin who assisted with the serving.

It was an open meeting and each guest brought pennies to a number corresponding to the inches of her waist line measurement. The sum thus realized will go toward the church building fund.

The hostesses of the afternoon in addition to Miss Tholen were Mrs. George S. Rogerson, Mrs. Philip Schütz, Jr., and Mrs. William Graubner. The program was in charge of Mrs. Brune, chairman; Mrs. O. L. Domke, Mrs. Robert Sice and Mrs. L. H. Redburn, and included several vocal selections by Mrs. Robert

### RAILROAD MERGER NOW IN PROSPECT

Rumor Has it That Union of C. & A. and Katy Roads Will Soon Be Announced.

(Bloomington Pantagraph)

Word comes from Chicago that the merger of the Chicago & Alton and Missouri, Kansas & Texas, is regarded as a certainty and that only the details of working out the amalgamation remain before the official announcement is made.

Buying of shares of the Chicago & Alton on the New York stock exchange is picking up. 3-100 shares of common being sold on Tuesday at 11 and 5-8. Success in negotiations for a merger of the Chicago & Alton and Missouri, Kansas & Texas systems, which would give a thru line from Chicago to the Texas coast of the Gulf of Mexico, is in sight, according to an Associated Press correspondent at St. Louis who asserts he obtained his information from a high railroad official. Definite steps toward a dissolution of the receivership of the M. K. & T. have been taken, it is said and the merger is expected to follow within the next thirty days.

According to the Associated Press informant, efforts have been made for some time to have the road taken from the hands of a receiver, in view of the fact that the financial basis of the road had been strengthened, due to increased earnings. A recent report showed net earnings of 5.01 per cent in 1921, in the property invested, as compared to 1.73 per cent in 1920.

C. E. Schaff was appointed receiver of the M. K. & T. Sept. 27, 1915. Last year repeated attempts were made to reorganize the road. A syndicate of New York bankers last year improved the road's property with a view to bringing about a reorganization. A number of suits have since been filed in connection with a clear title on some of the property of the road as part of the proposed reorganization plan.

### MATRIMONIAL

#### Houston-Tennis

The marriage of Miss Dessie May Tennis of Meredosia and Dallas F. Houston, of Cobb, Wis., was solemnized at 11:30 o'clock Thursday morning. The ceremony was performed by C. O. Dayha at his office on West State street, and was witnessed by Miss Fanny Tennis and Henry A. Kreister, both of Meredosia.

The bride is a daughter of Mr. and Mrs. S. M. Tennis, well known residents of the Meredosia community. Mr. Houston is a son of Bryson L. Houston of Cobb, Wis., and is a farmer by occupation. The young people have the best wishes of their many friends.

#### Albright-Schoenfield.

A 2 o'clock Thursday afternoon Rev. M. L. Pontius performed the ceremony which united in marriage Mrs. Edith Schoenfield of this city and Henry Albright of Chicago Heights. The bride and groom were unaccompanied.

The bride is a daughter of Mr. and Mrs. Charles Patton of 50 Webster avenue. She has until recently been a nurse at Oak Lawn sanatorium and is well and favorably known in the city.

Mr. Albright is a son of William Albright of Chicago Heights and he and his bride will make their home there after an extended stay in Dawson Springs, Kentucky.

Mrs. Hugh Breeden and daughter, Julia Jane, are visiting Mrs. Breeden's mother, Mrs. Widmayer of Virginia.

Mrs. Clarence Cassell helped represent Bluffs in the city yesterday.

Mr. and Mrs. Arthur Bush of Winchester were callers in the city yesterday.

Mrs. J. J. Newell and daughter were down to the city from Ashland yesterday.

Stice, Games and contests furnished the amusement of the afternoon, and delightful refreshments were served.

#### Westminster Women.

### COL. JOHN W. CLINNIN WAS ON STAND

CHICAGO, June 8.—Colonel John W. Clinlin, former assistant United States District Attorney, testified to day for the Chicago Tribune against Mayor Thompson in the latter's \$500,000 libel suit against the newspaper. While he was in France in command of his regiment, Colonel Clinlin said he came in contact with German propaganda bearing Mayor Thompson's name.

The witness then described a conversation with Fred Lundin, one of the mayor's supporters regarding the mayor's campaign for a senatorial nomination, plans to combat President Wilson's popularity on the strength of the 1916 slogan "He Kept Us Out of War" and relative to the use by the Thompson-Lundin forces of the so-called German vote.

### RETURNS VERDICT IN BOY'S DEATH

The jury sworn to inquire into the death of Lindel England met Thursday and completed its work. After hearing all the evidence the jury returned the following verdict:

"We, the undersigned jurors, sworn to inquire of the cause of death of Lindel England, on oath do find that he came to his death by being run over by the hind wheel of a hay press owned by the Messrs Starks and Biggs. That the accident causing his death was due largely to carelessness on the part of one Mr. Higgins in not looking after the team hitched to the hay press, in whose charge the team had been left by Mr. Starks. That the accident occurred on East Washington street in front of No. 336."

### ASPHALT PAVEMENT ON EAST STATE STREET

Board of Local Improvements Took Favorable Action at Meeting Thursday Afternoon.

A hearing with reference to the East State street pavement from the railroad to Johnson street was held by the board of local improvements Thursday afternoon. Two property owners were present to make objections, William Newman and S. H. Larimore, and their objections were not made very vigorously, their only thought being that it would be more economical to defer the building of the pavement for another year.

After full discussion of the case the board adopted a resolution for the pavement, providing for asphalt as the material to be used. The plans also call for a narrowing of the pavement to 30 feet. On a part of the street now the pavement is 36 feet wide and for the remainder of the distance is 32 feet wide.

The change to asphalt pavement will lessen the cost by comparison with the specifications for brick.

### VETS OF FOREIGN WARS WILL PLAN OUTING

A meeting of the Veterans of Foreign Wars will be held Monday, June 12, at 8 o'clock p. m. At this time final plans will be made for the annual river trip. A committee will be appointed with the expectation that the excursion will be made even better than the one last year.

### WILL TAKE ADVANCED WORK IN LAW STUDY

Joseph Donovan is visiting at the home of his parents, on South West street. Mr. Donovan has just completed his course in law at St. Louis University. He is expected to go to Georgetown University in Washington to study a year for his master's degree.

This Jacksonville young man is in this way equipping himself for the profession he is to follow.

### WILL REMOVE TO SPRINGFIELD

Mr. and Mrs. Dan Moore and son Dan are to leave tomorrow for Springfield. Mr. Moore has purchased a residence in that city and will enter business there. Mr. Moore was until a few months since a member of the firm of Birnbaum & Moore but sold out his interest and determined to locate in Springfield, his former home.

### AT ATLANTIC CITY.

G. W. Gard is in Atlantic City this week as a delegate to the national gathering of the T. P. A. Mr. Gard has written Jacksonville friends that the committee that arranged for the convention overlooked nothing in making their preparations.

Thos. Lawless journeyed from Springfield to the city yesterday.

### EMPORIUM BEGINS CLOSING OUT SALE

Proprietor Announces He Has Notice to Vacate Building by July First.

The final closing out sale of the Emporium has been announced by the proprietor, Edward Goldstein. On another page of this paper a copy of a letter from Andre & Andre, written to Mr. Goldstein, is printed. Andre & Andre own the building now occupied by the Emporium and have notified Mr. Goldstein of their wish for possession of the building by July 1.

The building was purchased by Andre & Andre with the intention of occupying it and it is the purpose of the firm to begin alterations at an early date.

The stock of the Emporium is large and well selected, as an inspection will prove. Every article in the store has its dependable value, but prices have been cut to a low figure, according to Mr. Goldstein's statement, and it is his determination to absolutely close out the stock between June 9 and June 30 if prices will do the work. As indicated the sale is to open this morning at 9 o'clock and will continue from day to day until the stock has been closed out. A full page announcement of the sale appears on page 12.

### HANNIBAL BRIDGE NOW OPEN FOR TRAFFIC

T. M. Tomlinson of the good roads committee of the Chamber of Commerce was notified yesterday by the Hannibal Commercial club that the bridge at Hannibal is now in passable condition. The bridge was closed recently in order to permit some extensive repairs. This work has all been completed and the bridge was thrown open to traffic yesterday.

The ferry at Valley City has been in operation for nearly a week past and now travelers on the Ocean to Ocean Highway can follow the regular route. A rapid increase in the amount of traffic can be naturally expected.

### OFF FOR FRISCO

J. Bart Johnson and Leonard Potter of this city left Springfield yesterday evening with the forty-two piece patrol band for San Francisco, Cal., where the band is to play at the fortieth annual convention of the Ancient Order Mystic Shrine on June 13-14-15. The delegation left on a special train.

Mr. and Mrs. Royal Oakes of Bluffs were among the city arrivals yesterday.

J. F. Shaubles of Springfield was an arrival in the city yesterday.

J. J. Lonergan was up to the city from Muraville yesterday.

If it can be bought in a drug store,

### PRAYER ASKED FOR S. S. CONVENTION

CHICAGO, June 8.—Sunday  
schools throughout Illinois have  
been requested to pray at their  
sessions next Sunday for the  
speakers and delegates at the Illi-  
nois Sunday school convention to  
be held at Galesburg June 13th  
to 15th. The request for prayer,  
made in a letter sent from the  
headquarters of the Illinois Sun-  
day School Association here and  
signed by George N. Burnie, Gen-  
eral Secretary of the Association,  
was sent to county leaders.Plans for a definite well-plann-  
ed evangelistic movement based  
upon religious education will be  
outlined at the convention for the  
delegates to take back to their re-  
spective Sunday Schools and to  
put into operation during the next  
year. The leaders of the Sunday  
School movement in Illinois will  
express their belief that evangel-  
ism that is supplemented by a  
course of Bible study and oppor-  
tunities for active service will  
give the churches permanent  
gains whereas the evangelism that  
is dependent upon temporary in-  
terest only will not do much good.  
The training of Bible teachers,  
the responsibility of parents for  
the religious education of their  
children and the enrollment of all  
church members as Bible students  
are other subjects to be stressed  
by the speakers.Among those who are to speak  
are Mrs. Maud J. Baldwin of the  
International Sunday School As-  
sociation, Dr. W. S. Bovard of the  
Methodist Sunday School Board,  
Sterling L. Williams of Kansas  
City, Missouri, the Rev. E. LeRoy  
Dakin of Charleston, West Va. Dr.  
Henry F. Cope, Secretary of the  
Religious Education Association,  
the Rev. Earl E. Harper of Bos-  
ton, and a number of others from  
Illinois cities and towns.The field workers of the Illi-  
nois Sunday School Association  
have participated in 100 County  
Sunday School Conventions during  
the year according to a request to  
be given the Executive Committee  
by Mr. Burnie.Mrs. W. F. Morris of Merritt

day.

## FINAL CONCLUSIONS

We reach final conclusions after spending considerable thought, time and money.

After several years of experience in the repair business we have concluded in a large percentage of cases, it is cheaper to rebuild a car than to follow any other method.

It requires machinery, experience, skill and judgment to estimate the cost and guarantee the result.

## DISCUSSES BETTER HEALTH FOR COUNTY

Dr. R. V. Brokaw County Health Officer Addresses Federation of Women's Clubs—Miss Rockwood Talks on Women and the Community.

"Better health for Morgan County depends on better health for every individual in the county," declared Dr. R. V. Brokaw, Morgan County's new full time health officer, in an address yesterday at Oak Lawn Sanatorium, before hundreds of women gathered for the annual picnic of the Morgan County Federation of Women's Clubs. Miss Edith Rockwood of Chicago, executive secretary of the Illinois League of Women Voters, made the other main address of the day.

Dr. Brokaw sounded a note of optimism and assurance in the health program which Morgan county is undertaking. He spoke of the hearty assurance of support which has already been extended to him by civic and county bodies. The Morgan County Medical Society, private organizations and prominent citizens, "I have never begun the organization of a health department under more encouraging auspices," he said. "The real solution to all public health problems lies in the development of correct habits of living on the part of each individual. In other words, the emphasis today is laid on personal hygiene."

"Disease is subject to definite laws of cause and effect. Where the cause is known it is possible

to more readily combat the disease. Much disease is preventable by reason of the fact that we know the cause. Vaccination against small pox; administration of diphtheria anti-toxin and the like are all important factors in the control and elimination of preventable diseases."

### Function of Health Officer

In speaking of the function of the county health officer, Dr. Brokaw stated that among the important features of the program to be carried out in Morgan county by the health department will be listed the following: The question of water and food supply; Sewerage and garbage disposal; Control of contagious diseases; Infant welfare; School hygiene; Recording of vital statistics; and Public health education. "Public health is purchasable," stated Dr. Brokaw in closing. "Every county, can within a reasonable degree, determine its own death rate. The result which Chicago has achieved in lowering its death rate during the last fourteen years, by reason of its expenditures in the public health administration, show what can be done. It is fair to assume that similar results can be secured in Morgan county."

### Morning Session

The meeting opened in the morning with an address by Mrs. W. T. Scott, president of the Morgan County Federation of Women's Clubs. Mrs. Frank Hunter then gave the secretary's report showing the work which the federation accomplished during the year and of the splendid achievement in furnishing the rooms at the Oak Lawn sanatorium. Mrs. Raymond Vasey gave the treat-

urer's annual report which showed that the amount paid in for the Tuberculosis Sanatorium thru the county federation of clubs totals \$2,460.81 for the year. The amount expended was \$2,040.08 leaving a total on hand of \$420.80. This report in itself tells what a great thing the federation has accomplished in making possible the furnishing and opening of the sanatorium.

Representatives from the different clubs of the federation made two minute talks giving reports of the activities of their respective organizations during the year. Dr. Grace Dewey, speaking in behalf of the Anti-Tuberculosis League outlined the county tuberculosis program which will be conducted in Morgan County along the following lines:

1. Treatment of the sick.
2. Prevention of manifested disease by prompting all conserving conditions.
3. Prevention of infection by discovering sources and treating contact with these sources.
4. Follow up work for the patients who have had sanatorium treatment or who have recovered sufficiently to be able to work again.

Economic provision for needy dependents of those who are ill.

### Picnic Dinner at Noon

At noon a picnic dinner was served under the trees of Oak Lawn. There were about three hundred present in all and clubs from all parts of Morgan county were represented. The gathering was one of the largest in the history of the federation and the annual affair was in every way an unqualified success.

After luncheon the program of the afternoon was begun by A. A. Curry, president of the board of trustees of Oak Lawn, who gave an address of welcome to the assembled club women. Dr. W. C. Martini, superintendent of Oak Lawn Sanatorium made a brief address in which he told of the work of the institution so far, the plans for the future and explained the routine of the hospital. The following musical program was the next feature of the afternoon:

Vocal—  
"Come for 'tis June"—Forrester.

"Song of the Robin"—Case.  
"Ho, Mr. Piper"—Curran.  
"You'll get heaps o' dinkins"—Stanton.

—Sung by Miss Tull.

Violin—  
"Song of India"—Rimsky-Korsakow-Kreisler.

"Mazurka de Concerte"—Haeshe.

"Rondino"—Beethoven-Kreisler.

—Played by Miss Susanne Rinehart.

(Program arranged by Henry Ward Pearson).

### Miss Edith Rockwood's Address

Miss Edith Rockwood of Chicago, executive secretary of the Illinois League of Women Voters, then delivered an address on "Women and the Community." The speaker pointed out that people who live together in neighborhoods and towns do not necessarily make a community. Common interests, common purposes, and common understanding are some of the factors where there is no common interest, where persons do not see good in things which other people do and where there is not harmony of purpose. The true community can only be secured by continuous communication and constant cooperation. The need of the town which is not a real community is for leaders who will gain the confidence of the different groups, show them some thing worth while to be done and aid in organizing to accomplish the worth while thing. In this way a town can be completely "Made over."

### Definition of Home

"They say that woman's place is in the home," said Miss Rockwood. "This is true because there are very few women who do not want a home. However the definition of home varies in direct relation to the distance from it. When one is "at home" he is bounded literally by the four walls of the house, or the boundary of the lot or farm. When he leaves town he at once designates his town as "home." When he is out of the state in which he lives, the state becomes home, and when he is in Europe, the United States is his home. It is as necessary for women, in relation to home, to realize that they must do their share in taking care of the town, county or nation as to care for their own homes."

There are many ways in which women have contributed to the social life of the community. They form a large part of the congregations at our churches and they fill many of the pews that they themselves do not occupy. The work of women in planning church suppers forms one of the principal recreational features of many communities. Well planned recreation is increasingly important in the town and country. In earlier times the people played together but now there is too much passive recreation, such as sitting in picture shows, at ball games and in theaters. Such recreation loses much of its recreational force. It is therefore necessary to see to it that young and old may take active recreation.

In speaking of the school in Illinois, Miss Rockwood pointed out that there are 10,000, one-room school houses in the state, many of which have only ten pupils. In Morgan County in 1920 there were 94 one-room school houses and only thirty-six of them met the requirements of the standard school as set by the State Department of Public Instruction. This fact is a challenge to men and women for if we are to give the children the

right kind of education we must start improving the schools.

### Value of Public Opinion

"No law is better enforced than the public opinion back of it," declared the speaker. "If women really want to see the law enforced it will be necessary to make their opinion felt. In a democracy one of the essential instruments is constant discussion thru which public opinion is formed. Women's clubs thru their own meetings, lecture course, and other public meetings make the major contribution to the forming of public opinion in a community."

"The fact that women are not fully awake to the responsibilities of democracy is shown by the percentage of women who voted. In 1920 in Illinois only 47 percent of the women voted. Morgan county showed a percentage somewhat higher than this, 50 percent of the women voting. The Illinois League of Women Voters is attacking this problem, by promoting citizenship education, not only for women but for others. A striking example of the influence of the home is shown in the statement that 'our political tendencies are largely set by the time we are ten years of age.' If parents show an ac-

tive public spirit and take intelligent interest in the affairs of the community, the children will follow in their footsteps."

Following Dr. Brokaw's address the annual election of officers of the Morgan County Federation of Women's Clubs was held. Mrs. Frank Green of the

Strawn's Crossing Club was elected president of the organization for the coming year. Mrs. Ben Lurton of the Jacksonville Woman's Club was named secretary and Mrs. Raymond Vasey of the Mound Woman's Club was made corresponding secretary and treasurer.

## Vacation Time-- Accident Time

Are you going to take a trip this summer? If so, beware of the accidents. From now on the papers will begin to chronicle the accidents, which will increase in number as the season goes on. Summer time, vacation time, always means more accidents.

A little, old accident policy costing a very few dollars, will give you a great big amount of satisfaction, in knowing that if something slips up on your blind side, your policy will pay the doctor, the hospital, and maybe the undertaker.

These policies cover any ordinary injury and can be bought for a short term or a long term, to cover your trip. A telephone call will bring you the information you want.

### MEREDOSIA MEN MADE A TRIP TO QUINCY

Interviewed Quincy Motor Club President Relative to New Trail—Other News of Interest From Meredosia.

MEREDOSIA, June 7.—Mayor L. F. Berger, James Brockhouse, C. P. Hedrick and W. F. Koogre went to Mt. Sterling Monday where they met the president of the Quincy Motor club for the purpose of discussing plans of the Quincy Motor Club's new trail which has already been started. The trail will be marked with a black letter "S" on a white background. It will start at Quincy run from there to Liberty, Mt. Sterling, Meredosia, Jacksonville and Springfield. Work of marking the trail has already begun and was completed as far as Jacksonville Wednesday. This is by far the shorter route between Quincy and Springfield. A splendid road is now being made on top of the levee on the west side of the bridge which will be above the high water. The bridge gang will be here to complete the planing this week. Our bridge committee certainly deserves credit for hustling things along, also for grasping every opportunity they could for the betterment of Meredosia.

J. Berthelsen and wife of New York City who have for the past three weeks been visiting with the latter's parents, Mr. and Mrs. B. R. Wilday, left Wednesday morning and will stop in Chicago and Indianapolis on their return home.

Mr. and Mrs. George Arnett returned home Tuesday from Waverly where they attended the funeral of the latter's sister, Mrs. J. H. Lowery, Monday.

Mrs. William Moss went to New Salem for a visit Wednesday. Mrs. A. E. Deatherage of Beardstown is a guest of her sister, Mrs. Hardy Kennett and family.

Mr. and Mrs. Jess Dunham of New Salem visited with their daughter, Mrs. Essie Conkright Tuesday.

Miss Josephine Laird returned to her home in Griggsville Tuesday after several days visit with Miss Olivia Driscoll.

Mrs. Albert Peters visited with home folks at Merritt Wednesday. Mrs. Mary Bollyard is spending the week with her daughter, Mrs. Henry Wax near Jacksonville.

Mrs. Erma Dammerell of Pontiac arrived Wednesday for a visit with her father and other relatives.

### CHAPIN COTERIE IN REGULAR MEETING

Miss Amy Onken Hostess to Club Members at This Week's Meeting—Other Chapin News Notes.

Chapin, June 8.—Miss Amy Onken very delightfully entertained "The Coterie" Wednesday afternoon. There were thirteen members and three guests present.

Roll call was responded to by naming places of note in the U. S. Mrs. Harry Onken gave an interesting account of "Places of Note in England," being reminiscent of a trip there in 1912-13. Victrola music was enjoyed. Dainty refreshments were served by the hostess.

The graduating class of the grade school and members of the faculty were the guests at a reception given Tuesday night at the close of the commencement exercises. Miss Mary Black, principal of the grades school, was hostess and entertained her guests at the home of Mr. and Mrs. J. H. Baldwin. Owing to the lateness of the hour no special program was carried out the hour being spent in an informal way. Delicious refreshments were served.

The C. E. society of the Christian church will serve ice cream and cake on the church lawn Saturday evening.

A mass meeting will be held in the grade school assembly Friday night in the interest of the Charles S. French Community High school. All persons interested in a high school for Chapin are urged to be present.

Mr. and Mrs. C. E. Black of north of Jacksonville were here for the eighth grade commencement Tuesday night.

Mrs. Ada Funk went to Jacksonville Tuesday night to visit her daughter, Mrs. Lloyd Ross and attend the club picnic at Oak Lawn Thursday.

Mr. and Mrs. J. L. Alderson were Jacksonville visitors Wednesday.

**FINE WINDOW DISPLAY**  
In the show window of the Coover Drug store, on the east side of the square, is a very artistically arranged display showing Gainsborough hair nets to good effect. The display was arranged by Charles Baker of the local store force and is an entry in the contest offered by the Chicago house, for the best arranged window display of their hair nets. From the attention the window is drawing we think that Mr. Baker will give some one a good race for the \$500 stake.

**WILL PAVE EAST STATE STREET**  
The board of local improvements met in the city hall Thursday afternoon to again consider the paving of East State street from the Chicago and Alton railroad to Johnson street. Only two property owners were present.

The board adopted a resolution to pave the street with asphalt with combined concrete curb and gutter. The pavement will be thirty feet in width. The original plans called for brick but a majority of the property owners seemed to favor asphalt hence the change in plans by the board.

Calumet is made under such exacting conditions — packed in such a scientific manner, that its leavening strength and purity never vary. It retains its original strength for months after leaving the factories.

When you tip the can to get the last spoonful, you know your baking will turn out all right—the last spoonful is the same as the first. This uniform quality of

## ROBERTS BROTHERS MANAGER WRITES

Tells Manager Frank Smith he Was Wrong in Game Last Sunday—Wants Another Game—Clark Back With Indies.

Manager Frank Smith of the Indians was surprised yesterday to receive a letter from C. L. Keagle, manager of Roberts Brothers baseball team of Springfield, acknowledging that Springfield's decision in the game last Sunday was right.

The play came up when a Springfield man scored after the batter had hit a line drive that struck Umpire Donahue. The umpire ruled that the batter was entitled to a hit but that the ball was dead and the runner could not advance.

Mr. Keagle stated in his letter that he was sorry his team did not understand the decision before the game was over as it had no desire to win a game unfairly. He also asked for another game on June 25. It is certainly good sportsmanship on the part of Roberts Brothers and no doubt Manager Smith will endeavor to give them another game.

It is also announced by Smith that Harry Clark who has been catching for Roodhouse will be back of the log for the Indians next Sunday. The Indians play Thayer and as they have a strong team it

will be a real battle for the locals to win.

## AMERICA TAKES FIRST YACHT RACE

BAYSIDE, N. Y., June 8.—America today took the first event in the start of the International races between model yachts when the Polkadot, Yankee Manicure craft built and designed by E. A. Pull of Brooklyn defeated the Endeavor of the entry of W. J. Daniels of London.

The Little Yankee craft completed the three mile race in 2 hours, 24 minutes and 3 seconds, crossing the finishing line a full lap of three fourths of a mile ahead of its British rival.

The winner must take three out of five races.

## CARDINALS WIN FROM BOSTON BRAVES

Take First Game of Season From Mitchell's Men—Doak Holds Brave to Four Hits.

BOSTON, June 8.—St. Louis won its first game of the season from Boston 5 to 1 today after losing seven straight to Mitchell's team. Doak's pitching was excellent as Boston got four hits, only one of them clean. Boston had won six straight. The fielding of Nixon was spectacular. Score:

## FORTY ENTRIES FOR BOAT RACES

PEORIA, Ill., June 8.—Forty entries have been received to date for the Mississippi Valley Power Boat association regatta here July 1 to 8. This is more than the total registration for the race last year according to members of the association of commerce general regatta committee. Plans are being made to make the coming regatta one of the largest in the history of Illinois river power boat racing. One thousand more seats than last year will be erected bringing the total seating capacity to 4,000.

## BACK FROM IOWA.

Cupid Mosely has returned from Fort Dodge, Iowa, where he went to deliver a fine saddle horse a wealthy lady there had bought. He said he found nothing in Iowa to compare with Illinois, the of course it is a fine state. While he was there the lady who bought the horse also bought a fine Pierce Arrow automobile, costing the small sum of nine thousand dollars. It was unique in the fact that the chauffeur is seated several feet higher than the other occupants of the car and in the rear. The passenger communicates with him by means of a speaking tube.

## On LONG JOURNEY.

Yesterday morning Mr. and Mrs. L. Jupper of Manhattan Beach, California, passed through the city on a motorcycle with car attached. They had been to Montclair, New Jersey to visit their daughter, Mrs. Edna Roest and were on their way home. They had a complete camping outfit, seemed to be in excellent health and were enjoying their journey. They had been following the National Highway, but changed to the Ocean to Ocean trail which they found much preferable. They were quite pleased with Jacksonville.

## HERE FROM COLORADO.

Mr. and Mrs. G. A. Muehlenhausen, son Edward and daughter Minnie, have arrived from Colorado Springs with the remains of the son who recently passed away. Mr. Muehlenhausen is in rather poor health being afflicted with neuralgia due to anxiety, hard work and exposure. They were met here by Mr. Muehlenhausen's brother, John A., of Girard, and Mrs. H. C. Albright of Springfield, sister of Mrs. Muehlenhausen.

## HOME FROM OKLAHOMA

F. L. Sharpe has returned from a business trip to Oklahoma and brings back a somewhat gloomy report of the territory he visited which was the cities of Pery, Bliss and Ponca. Wheat looks very poor and other crops are little better. From Wichita south the wheat was red with rust and very small. One man in Oklahoma doubted if he would get more than seed back from his wheat. A severe dry spell in southern Kansas the part of Oklahoma visited by Mr. Sharpe, retarded the growth of the young wheat and it has not had strength to recuperate. A few weeks ago the writer crossed Kansas on the Union Pacific road and along that route the wheat looked very well though there was too much water to permit much if any spring work.

Noah Smith of Ashland was down to the city yesterday.

## STOCK MARKET HAS DULL SESSION

By Associated Press. NEW YORK, June 8.—Continuation of the regular drift of prices characterized today's dull and professional stock market. Dealings were on the smallest scale of any full session in many weeks, barely totaling 800,000 shares.

Developments over night and in the course of the day contributed measurably to the market's hesitant tone. Publication of the exact terms of the three company steel merger, the postponed strike call of the railway unions and abandonment of the plan to negotiate an international loan for Germany occasioned more than casual comment.

Investments which were more favorably upon general conditions and market values included cheap yet another rise in commodity prices and the new record established by the automobile industry in May.

The opening quotation of 31 per cent for call loans was the lowest renewal rate for that accommodation since April, 1918.

Before noon and for the remainder of the session such funds were freely available at 3 per cent. In private offerings 30 day loans were negotiated on high grade security at 4 per cent.

Sterling eased about half a cent presumably on the decision of the international bankers in Paris. Liberty Third 4 1/2s made a new high record of \$100.08 and the Fourth 4 1/2s duplicated the year's maximum at \$100.06. Several others of that group again rose to par or over.

Total bond sales (par value) aggregated \$14,075,000.

## UPWARD TURN IN THE WHEAT MARKET

By Associated Press. CHICAGO, June 8.—Altho most wheat traders had figured out correctly in advance the bearish nature of the government crop report this evening the market took an upward turn at the close. Closing quotations were unsettled at the same as yesterday's finish to 1 1/2 cent higher with July 1 1/4 to 1 1/4 1/4 and September 1 1/4 to 1 1/4 1/4. Corn finished unchanged to 1/4 @ 1 1/4 up, unchanged to a shade advance and provisions at gains of 2 1/4 to 10 @ 12 1/2c.

It was only in the final hour that the wheat market got above yesterday's close. Aside from private crop estimates very near to the contents of the government report, beneficial rains in the northwest tended to make values her decline at first and so did failure of the Liverpool market to respond to yesterday's advance in America. Another bearish factor was announcement that harvesting of wheat was in progress as far north as Vincennes, Ind.

Enlarged demand for cash wheat in all positions however, helped in some degree to lift prices due to the late dealings. Provisions were swayed by changes in the value of hogs.

## CASH GRAIN REPORT

By Associated Press. CHICAGO, June 8.—Wheat in the cash market continued in light offerings. Premiums and discounts today were unchanged on all grades, except No. 1 and 2 hard which were 1c better. Domestic shipping sales were 150,000 bushels.

Corn was in good demand with leading elevators the best buyers. Trading basis were 1c better and actual sales were 1c higher.

Domestic shipping sales were 120,000 bushels. Sales of 100,000 bushels of corn were made to go to stock here.

## Chicago Livestock Market

By Associated Press. CHICAGO, June 8.—Cattle—Receipts 14,000, better graded beef steers strong to 1 1/2c higher. ## HOME READING PLAN IN PUBLIC SCHOOLS

For the past six years there have been a co-operative effort toward home reading on the part of school children carried on by the Public Library and the Public Schools. Each semester a set of books is sent to each grade in the city from the third grade thru the sixth. Careful reports are required and each child reads at least three books each half year for which he receives regular reading credit. Many children read from eight to fifteen books each year.

During the past year a total of 12,963 circulations have been recorded in these grades. A circulation by months is as follows:

November—1069.  
December—1579.  
January—1974.  
February—1888.  
March—2409.  
April—1738.  
May—2306.

This is a very excellent showing and one which means much in its correlated educational influence in the community. This plan was worked out by Supt. H. A. Perlin and the Public Library five years ago and it has since grown each year until it has assumed a sphere of wide influence.

## EARLY WHEAT HARVEST

Mr. and Mrs. M. O. Mathews returned yesterday from a visit to their farm near Concord. Mr. Mathews noted that wheat is maturing rapidly and from all appearances will all be harvested some time before the Fourth of July. That on his farm he thinks will be ready to cut within two weeks.

## SUCCESSFUL FISHERMEN

Joseph DeGoveia and son Lawrence went to the river fishing on Wednesday and returned with a story of remarkable luck and it is also just to the gentlemen to say that the Journal's information comes thru others than the fishermen. At any rate the fruits of their fishing were a basket of pretty good size well filled with fine swimmers.
